BACKGROUND AND EXPERIENCE	
Please briefly present the organisation.	<p>Cultural Alleys is a non-profit organisation based in Lithuania, officially established in 2025. We operate at the intersection of artistic practice, academic inquiry, and community engagement, fostering collaborative projects with artists, researchers, students, youth workers, and cultural practitioners across disciplines.</p> <p>Our work engages with cultural, individual, and social structures through their own lenses, nurturing layered and interdisciplinary approaches. We design and implement initiatives grounded in cross-sectional methodologies and transcultural dynamics, bridging cultural phenomena across communities with inclusivity, respect, and recognition of difference at the core of our practice.</p> <p>Young people, including students and youth workers, are active participants and contributors in our projects. Through workshops, community-based initiatives, and collaborative programmes, we create spaces that support personal and professional development, fostering skills such as critical thinking, intercultural understanding, and creative practice. Youth engagement shapes how we design and deliver our work, ensuring diverse perspectives remain central to the cultural and social processes we collectively explore.</p>
